1) Mold Disclosure: Along with the inspections you have been advised to perform concerning the physical condition of the subject property you should also be aware that you have the right to have the property inspected for mold, mildew, spores and airborne bacteria.

Some types of molds, spores and airborne bacteria are believed by health care providers to cause illness in human beings. Generally physical home inspectors do not report on mold, spores, and airborne bacteria. Real Estate Brokers and Agents are not trained to identify or locate mold, spores, and airborne bacteria. The Real Estate Brokers and Agents have not made any representation express or implied as to the existence or non-existence of mold, spores, or airborne bacteria in or on the subject property.

If you are concerned about the possible presence of mold, spores, or airborne bacteria in or on the subject property you are urged to have an environmental inspection by a qualified individual or entity. The statements of the Seller and/or others concerning mold, spores or airborne bacteria have not and will not be verified by the Real Estate Brokers and/or Agents.

The Real Estate Broker or its Agent herein may refer the Buyer to a lending institution to obtain loans as required to complete this transaction. In connection with any such referral, Broker may or may not receive a commission. It is mutually agreed and understood that Buyer has made their own independent investigation of available financing and is in no way relying on the recommendation of the Broker and/or Agent in regard to the financing they ultimately accept and, in fact, is free to obtain financing and other services unless contractually stipulated to the contrary between Buyer and Seller.
